***Re: WT Docket No. 01-309***  
***HAC Digital Wireless Telephones***

**Fourth Semi-Annual Report**

Dear Ms. Dortch:

GW Wireless, Inc. ("GWW") is the licensee of Station WPOJ757 (E-Block – Mitchell, South Dakota BTA) and Station WPOJ758 (C-Block – Rapid City, South Dakota BTA) in the broadband Personal Communications Service. This report is submitted pursuant to the requirements of Paragraph Nos. 89 – 91 of the Commission's *Report and Order* (WT Docket No. 01-309), FCC 03-168, released August 14, 2003 ("R&O").

By way of background, GWW is a small, Tier III Commercial Mobile Radio Service licensee, as defined in the Commission's E-911 *Order to Stay*, FCC 02-210, released July 26, 2002. The company has configured its broadband PCS system in Rapid City to provide a fixed, data-only service using an Airspan AS4000 wireless DSL platform. The Mitchell BTA system is under construction pursuant to a pending waiver request. See FCC File No.0001774393. Because GWW currently offers two or fewer digital wireless handsets in the U.S., it qualifies for the *de minimis* exception to the Hearing Aid Compatibility ("HAC") rules, described in Rule Section 20.19 (e)(1).

Should you have any questions, please contact John Prendergast or Cary Mitchell of the law firm of Blooston, Mordkofsky, Dickens, Duffy & Prendergast. Either may be reached by calling (202) 659-0830.

Respectfully submitted,

**GW WIRELESS, INC.**

Bill Cook
